

Data_initXML

```
graph LR; A[Data_initXML] --> B[Xml_loadConfig]; B --> C[Xml_freeConfig];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'Data_initXML' on the left, which is shaded gray. A dark blue arrow points from this box to a second, white box labeled 'Xml_loadConfig' in the center. Another dark blue arrow points from the 'Xml_loadConfig' box to a third, white box labeled 'Xml_freeConfig' on the right. All three boxes are rectangular with black outlines and are arranged horizontally.

Xml_loadConfig

Xml_freeConfig
